The quality of this blue is unequalled. Being purely vegetable, it will not injure the most delicate fabrics, and dissolves so freely in water as perfectly prevent stains.

The quantity in each box is much greater than many other kinds of blue put up in boxes. One small box holds at least to one quart of liquid blue.

There is no danger from freezing, as in the case of liquid blue.

With our patent box there is no waste, and no accident can occur as the blue is used without removing the cover.

For fitness and convenience it surpasses all other kinds of liquid or blue bluing.
